

## Transitions to CIT

# Maths Learning Community, Department of Mathematics

The Department of Mathematics have had a strong history with maths learning community projects in the past

### Objective of project

#### Department

- Foster an enthusiastic community of 3rd level maths educators
- Provide a space for conversations on maths education and to share ideas

#### Faculty

- Examine good practice in delivery of maths with the use of Maple

#### Institute

- Explore how to share good practice in research questionnaire design with the larger CIT community
- Explore the potential of making the statistics of exam results more accessible across CIT

### Who was involved?

Maretta Brennan, Michael Brennan, Julie Crowley, Seán Lacey, Marie Nicholson

### Benefits to students and staff

#### Department

- Tutor/Lecturer Accreditation Maynooth Workshop, April 2019
- Card Game 45 Tournament, June 2019

#### Faculty

- Workshop on the use of Maple in Teaching & Learning, May 2019

#### Institute

- Statistical Analysis Calculator on Exam Results, May 2019
- Research Questionnaire Design Learning Resource, June 2019

### How many students were positively impacted as a result of this project?

400 students per semester

## Feedback/Testimonials

### Tutor/Lecturer Accreditation Maynooth Workshop, April 2019

'Made me aware of the value of writing reflections on my teaching.'

### Workshop on the use of Maple in Teaching & Learning, May 2019

'Even though I teach Maple, I picked up tips on areas I wasn't familiar with.'

### Statistical Analysis Calculator on Exam Results, May 2019

'Thanks for sharing this file! It will save a lot of work before external examiner visits!'

'Many thanks to all involved. Great help at this time of the year. Much appreciated!'
